

Star Wars

Camp Spotlight

July 27-31, 2020

1:00-4:30 PM, \$44 per day

Make it a full day for \$88 by adding
a morning camp!

Summary - The Force will be strong in all that come to Airborne! Campers will be fully engrossed in the gigantic Star Wars universe. Our boys and girls will become young Jedi and develop their lightsaber skills, battle the dark side, and make cool crafts like the Death Star and BB8.

Monday: The Force – Discover the forces all around you, young Jedi! We will use Jedi stones (aka magnets) to work on our Jedi mind control, and use static electricity to carry balloons across a circuit of mats without using our hands.

Tuesday: LightSabers – You have earned your own lightsaber! We will begin the day making lightsabers that we will use throughout the day. Jedi will use their lightsaber to knock down Empire buildings (foam towers) and keep Rebel ships in the air .

Wednesday: Pod-racing & Padawan Training – Our Padawan (young Jedi-in-training) can be wearing their robes as they try to complete Jedi circuits and improve their sense of bravery and balance. Pod-racing is also a favorite Padawan activity and we will be racing around a track.

Thursday: Spaceships & Droids – It isn't Star Wars without plenty of spaceships and droids! We will be building ships out of mats, and working to cross the green galaxy without falling off our ships! Our Jedi will have to program their droid (blind-folded partner) to cross the ocean without being caught by the sand people, and we will make our own death stars as a craft!

Friday: Time for Battle – This is the official battle day - Jedi versus Sith! Lots of games with a Star Wars twist! Our coaches will be embracing the dark side and our campers will need to work together to defeat the Sith once and for all!
